AGHRM

Simplified HR Solutions for Businesses

Why Simplified?

Because businesses only need HR to work!

AGHRM is a cloud based HRMS solution that empowers users to manage complex HR operations easily.

SOLUTIONS

We provide fully integrated, work flow solutions that streamline the process of human resource and payroll management.

Our solutions include:
- Personnel – Includes active monitoring of HR events like probation confirmation, certification renewals, etc.
- Leave – Online leave approvals, balance enquiry. Web mobile version is available
- Claims – enables online claims submission, timesheet or project based tracking, and automated routing workflow.
- Attendance – Tracks staff attendance and automate overtime computation
- Payroll – Automatic CPF computation, Interface to m

BENEFITS

- **Business oriented**, our team will conduct a business requirement process study to understand your operation requirements and coupled it will the best industry practices

- **Legislation compliance**, statutory obligation is ever changing and it is a heavy investment to keep up with the changes. Outsourcing alleviates such burden

- **Data security**, through outsourcing to a neutral third party service provider, company will be assured that all sensitive data are protected and available only to authorized administrators. This reduces the risk of any internal information leakage

- **Peace of mind**, the human resource and payroll complexities and services are managed by a team of professional consultants. Your payroll is executed on-time, your employees are paid promptly, and annual returns are submitted correctly

- **Cost management**, save on operation cost by avoiding dedicated in-house resources. Available resources can be deployed for more strategic functions.

ABOUT US
